Hi Uncle Phil-

## Non-Responsive

In regards to the EPA, Bristol Bay project, was the talk you gave effective and moving you in the right direction? I hope the issue of Science that I found and scanned helped the cause. Let me know if you ever need resources in the future. I should be wrapping up my master's in the next two quarters and then moving on the other opportunities. I'll keep you posted.

Be well,  
Katie
